

Cori Behavioral Collection

kwalu®

Cori Behavioral Health Collection
Designed by CannonDesign

Influenced by biophilic principles, the Cori Behavioral Health Collection features sculpted, organic forms that bring an approachable, restorative aesthetic to behavioral health environments.

Designed for comfort, safety, and performance in low- to mid-acuity behavioral health facilities, the smaller scale and durable construction make Cori well suited for waiting areas, therapy clinics, group homes, rehabilitation centers, and step-down units. Available as a lounge chair, loveseat, and sofa, each piece supports the balance of security and comfort essential to behavioral health design.

Spaces for Everyday Connection

Cori Behavioral Health seating with Tamburo Behavioral tables creates a cohesive, secure setting for behavioral health common areas.

Spaces for Reflection and Respite

Cori Behavioral Health seating with Tamburo Behavioral tables offers a calm, secure setting for smaller group interaction or individual respite within behavioral health environments.
