**Designed to Support
Every Moment**

Support Every Moment™

Crafting Spaces for Every Story

Senior living is more than just a place to live—it's about creating a true sense of home, fostering dignity, and building community. At Kwalu, we design furniture that helps shape these environments, supporting residents, caregivers, and families through every moment.

Guided by our Support Every Moment™ philosophy and inspired by the resilience of the Protea™, we create products that endure—seamlessly blending beauty, performance, and purpose in every space where life is lived.

Transform the Resident Room Experience

Every element in a resident room should work together to create a space that is both functional and inviting. With clean lines and a modern aesthetic, the Nashville Collection helps shape rooms that feel intentional, balanced, and beautifully complete.

Crafted with Protea™ Fusion, these casegoods offer the warmth and natural grain of wood with a refined finish—without the drawbacks of traditional wood or laminates. The 1.5” thick face frame with mitered corners adds definition, highlighting the precision and craftsmanship of each piece. A 2” plinth base and elegant finger pulls add clarity and character without distraction.

NASHVILLE COLLECTION

TROPITONE® FOR KWALU

Introducing the Breeze and Oasis Outdoor Collections

Introducing Breeze and Oasis, two outdoor collections crafted specifically for senior living. Designed to provide optimal support and comfort, each piece features appropriate seat heights, areas for grip, and the ability to anchor the furniture with additional weight in the frames. The collections include both dining and lounge versions, along with a selection of side tables and dining tables. With customizable finish options, strapping, and fabrics, Breeze and Oasis can be tailored to complement any space.

The Art of the Lounge

Shared spaces in senior living communities should be designed with intention—offering comfort, connection, and visual harmony. The Amara Lounge Chair brings that vision to life with its softly curved back and generously cushioned seat, creating an inviting place to relax, gather, or simply pause.

A sweeping Protea™ accent wraps around the barrel silhouette and flows seamlessly into the legs, offering a distinctive design detail that adds warmth and movement to the room.

AMARA LOUNGE + ALTOLIA COFFEE TABLE + CARINI SOFA

PALENCIA TABLES

Sculptural Simplicity

Modern and sculptural, the Palencia Table introduces a distinct design element to the space. Available in both coffee and side table options, its soft round top and tapered base create a clean, modern silhouette. The base is crafted with Protea™ Fusion, combining the rich character of wood with a durable, easy-to-clean surface—ideal for high-traffic environments. The top can either match the base with Protea™ Fusion or create a striking contrast with solid surface options, offering flexibility in design and functionality.

Crafted for the Table

The Pamplona Dining Chair combines a curved upholstered back and padded arms to provide comfort and support in dining and activity spaces. Its sculpted frame, made with Protea™, our proprietary non-porous material, delivers the warmth of wood with durability and easy cleanability.

PORTICI CHAIR + TITAN TABLE BASE

Perfect Pairing

The Portici Dining Chair brings comfort and performance together in a design suited for both dining and activity spaces. Its arms, legs, back, and base are crafted with Protea™, our proprietary non-porous material that delivers the look of wood with added durability and cleanability. A visible cleanout supports maintenance in high-use environments, while optional features like a handgrip and front casters offer added flexibility.

The Titan Table Base offers a modern, minimalist foundation. With a round base and centered column, it provides stability and simple form that works across a variety of dining settings and tabletop sizes.

At Kwalu, we create nurturing environments that inspire care, comfort, and connection in healthcare and senior living.

For over 30 years, we've crafted high-quality, durable furniture that enhances the spaces where people live, heal, and build community. What sets us apart is Protea™, our proprietary, non-porous material that offers the beauty of wood with unmatched durability. Inspired by the resilient Protea flower, it ensures our furniture withstands high-traffic environments while remaining easy to clean and maintain.
