Tropitone for Kwalu: Crafted for the Outdoors, Created for Connection

There's something restorative about being outside — the light, the air, the sense of calm that comes from shared moments in the open. Tropitone for Kwalu was created to make those moments more accessible for senior living communities.

Each piece in the collection is shaped with the senior experience in mind — from ergonomic comfort and grip-friendly details to stability and ease of use. Together, they transform outdoor spaces into true extensions of home.

Tropitone Collection

Oasis • Milo • Banchetto • Breeze • Kali

Gather in Comfort

Oasis brings a softer expression to outdoor spaces, with generous seat depths and curved arm profiles that encourage relaxation and connection. Each detail is shaped to provide natural support — allowing residents to sit and rise with ease while feeling secure and at rest.

Milo tables complement that warmth with clean geometry and enduring presence — ideal for dining, activity, or casual gathering. Together, they create a welcoming destination: a place to share meals, stories, and the comfort of belonging.

Banchetto Dining Table

The Banchetto table offers a clean, timeless aesthetic that pairs seamlessly with either seating series.

Connect and Reflect

The Breeze seating series captures the quiet simplicity of open-air living. Its gently curved frame and supportive strapping invite rest while maintaining an upright, confident posture. Crafted to accommodate the ergonomics of senior living, Breeze balances a sense of lightness with lasting comfort.

Paired with the Kali tables, the look is both cohesive and grounded. The sculpted base and refined proportions echo Breeze's fluid silhouette, creating an inviting setting for conversation or reflection — where design and usability move in perfect harmony.
